Création d'un executable HABBY

Windows

```
 pyinstaller habby.spec --distpath=build/pyinstaller --
workpath=build/pyinstaller/temp
 robocopy biology build/pyinstaller/habby/biology /E > nul
 robocopy doc build/pyinstaller/habby/doc /E > nul
 robocopy model_hydro build/pyinstaller/habby/model_hydro /E > nul
 robocopy translation build/pyinstaller/habby/translation /E > nul
```

Linux

```
 pyinstaller habby.spec --distpath=build/pyinstaller --
workpath=build/pyinstaller/temp
 cp -r biology build/pyinstaller/habby/biology
 cp -r doc build/pyinstaller/habby/doc
 cp -r model_hydro build/pyinstaller/habby/model_hydro
 cp -r translation build/pyinstaller/habby/translation
```
